

OmniTRAX Position Description

Title: Supervisor Mechanical

Location: The Pas, MB

Reports to: General Foreman-Mechanical

Salary Range: Commensurate with qualifications and experience

OmniTRAX, Inc. is one of North America's leading transportation services companies. Based in Denver, Colorado, OmniTRAX, Inc. managed businesses are located in 9 states and 2 provinces providing a full range of transportation and logistics services. These services include railroad, port, and industrial switching operations as well as intermodal operating services.

General Summary:

The Supervisor Mechanical is responsible for day to day direct supervision of the maintenance of Locomotive and Car Repair departments based at The Pas, Manitoba. Reporting to the General Foreman Mechanical, this position will supervise a crew of up to 12 employees and will ensure the safe and efficient maintenance of locomotives and railcars.

Essential Job Duties: Other duties may be assigned, as requested or required

- Ability to supervise repairs of railcars and locomotives in accordance with the guidelines set forth by the AAR and Transport Canada.
- Ability to maintain an inventory of parts to perform repairs commonly done at your location.
- Ability to comply with instructions both written and oral.
- Ability to read and comprehend published rules, procedures and manuals, inspection checklists, government regulations, operating maintenance instructions, memos and other work-related information.
- Guides and directs front line hourly employees, instilling pride, safety, personal development, team production and promotion of the organization's products and services.
- Heavy work, lifting up to 70 pounds and occasionally up to 100 pounds on a rare basis.
- Evaluates the results of their local operations regularly and systematically. Incumbent will be held accountable to be aware of all issues and matters within their area as they pertain to local performance and mechanical reliability.
- Complete annual training and pass safety rules examination.
- Work safely and supervise others accordingly to prevent on the job accidents and injuries.
- Wear protective equipment such as hard hat, hearing protection, safety-toe boots, safety glasses and other equipment as tasks require.

Education/Experience:

- High school education or general education development (GED).
- Perceived aptitude in the field of Locomotive or Rail Car maintenance.
- Experience in direct supervision of front line employees.
- Experience in inventory and material management would be an asset.
- Experience in wrecking and on site incident safety supervision would be an asset.

Certificates and Licenses:

- Valid Driver's License

Knowledge, Skills, and Abilities:

- Basic computer skills a necessity.
- Re-railing experience would be a strong asset. Experience with road repair trucks and mobile cranes would also be a plus.
- Must have the ability to work with and supervise people both one on one and in groups.
- Demonstrate attention to detail and ability to coordinate various activities simultaneously.
- Reasoning skills (problem solving and troubleshooting skills).
